Preliminary Call for Participation: UbiComp 2003

UbiComp 2003 – http://www.ubicomp.org
October 12-15, 2003
Seattle, Washington, USA

You are invited to contribute original and exciting ideas to UbiComp 2003, the Fifth International Conference on Ubiquitous Computing. UbiComp is the premier venue for presenting research and development achievements in the design, implementation, deployment and evaluation of computing technology that migrates beyond our desktops onto our hands, heads and clothing, and becomes increasingly embedded in a wide variety of other objects, such as walls, cars and appliances.

We welcome submissions that report on innovations in ubiquitous, mobile and pervasive computing, including but not limited to the following topics:

- New technologies and devices for ubiquitous computing
- New applications of ubiquitous computing technologies
- New interfaces and modes of interactions between people and ubiquitous computing devices, applications or environments
- New infrastructures and architectures for supporting ubiquitous computing applications
- Evaluations, and evaluation methodologies, for assessing the impact of ubiquitous computing devices, applications or environments
- Social implications of ubiquitous computing.

UbiComp 2003 Participation Categories (with preliminary deadlines):

FULL PAPERS: Deadline: April 23rd 2003
18 pages long (Springer format); will be published in the conference proceedings.

TECHNICAL NOTES: Deadline: April 23rd 2003
8 pages long (Springer format); will be published in the conference proceedings.

WORKSHOPS: Deadline: May 30th 2003
2 page proposals; workshops will be held on Sunday, October 12.

PANELS: Deadline: May 30th 2003
4 page proposals; ideally focused on controversial and/or provocative topics.

POSTERS: Deadline: July 11th 2003
2 page abstracts; there will be a special Posters session during the conference.

VIDEO DEMONSTRATIONS: Deadline: July 11th 2003
8 minutes or less; distributed via CD-ROM/DVD at the conference.

DOCTORAL CONSORTIUM: Deadline: July 11th 2003
2 page abstracts, plus optional poster; not included in proceedings.

All submissions will undergo peer review by a committee of experts drawn from a wide variety of disciplines relevant to ubiquitous computing.

General Chair: Joe McCarthy, mccarthy@intel-research.net
Intel Research, Seattle, USA

Program Co-Chairs: Anind K. Dey, anind@intel-research.net
Intel Research, Berkeley, USA
Albrecht Schmidt, albrecht@comp.lancs.ac.uk
Lancaster University, UK
