

BRINGING PEOPLE TOGETHER TO TALK FUTURE  
TRANSPORT AND TECHNOLOGIES FOR PEOPLE  
LIVING WITH DEMENTIA.

# TRANSPORT TECHNOLOGY STUDY

Seeking people living with mild dementia, care partners, people with experience in transportation, technology, health, ethics, law or policy.

**Participation is flexible. You can:**

- Get background information about issues and give your responses
- Discuss the big questions in groups, chat with a researcher, or write a response
- Look at summaries of everyone's thoughts and respond to these
- Vote on the important issues.

**The research will take place during October, 2021 – please contact us to be part of it, or with any questions Jacki Liddle:  
[j.liddle@uq.edu.au](mailto:j.liddle@uq.edu.au) .**

This study is approved by the human research ethics committee at the University of Queensland and funded by the Dementia Collaborative Research Centres and Dementia Australia Research Foundation
