

TIC CPD ADVANCED COURSE UPDATE

POWER TRANSFORMER TESTING – CRADLE TO GRAVE was delivered on 1-2 July 2019

Eight presenters from industry and academia delivered the two day course, providing the desired balance between industry practicality and academic scientific understanding.

The course was sectioned into areas of factory acceptance testing, site acceptance testing, sharing of transmission and distribution utility practices, field diagnostic testing, offline testing practices and academic research and condition monitoring experiences.

Craig Adams Trafoix highlighting FAT HV pitfalls

The 23 attendees were a blend of:

- Eight generation/transmission/distribution companies,
- Transformer manufacturer and service companies
- Transformer equipment suppliers
- Two universities
- 100% of delegates said they would recommend this course to others.
- 100% of delegates rated the course either Excellent or Good.

What delegates said:

- | | |
|---------------|---|
| United Energy | <i>“very well organised and very useful topics, explaining the pitfalls, factory acceptance testing was the highlight, practical examples.”</i> |
| ETEL | <i>“Knowledge sharing and well organised, highlight was meeting the experts.”</i> |
| EnergyQ | <i>“there are many things that I can directly use and implement in my work”</i> |
| TasNetworks | <i>“Was at a suitable level and knowledge about transformer testing, informative and practical”</i> |

NEXT COURSE WILL BE POWER TRANSFORMER INSULATION MASTERCLASS WHICH WILL BE HELD IN:

- | | |
|-----------|----------------------|
| Brisbane | 17 - 18 October 2019 |
| Sydney | 21 - 22 October 2019 |
| Melbourne | 24 - 25 October 2019 |
